Product Description

Product Description:

Our PVC foil is primarily made from Polyvinyl Chloride (PVC), which is a type of synthetic plastic material renowned for its durability, flexibility, and ease of processing.

Our foil comes in a wide range of colors, patterns, and textures in order to replicate the look of natural materials, such as wood, stone, fabric, or metal. It provides a cost-effective alternative to its natural equivalents with an excellent aesthetic finish.

Our PVC foil can be applied to an extensive variety of surfaces, including doors, cabinets, walls, and furniture. It sticks well to different materials and can be used in different interior spaces. The foil has the specification of being resistant to erosion and boasts exceptional levels of strength. This makes it an adequate material, especially in high-traffic areas.

PVC foil is easy to clean and requires just weekly wiping with a moist cloth. It is often used by people looking for style without the related cost as it is more affordable than its natural equivalents.

A large range of styles and finishes from manufacturers can enable modifications that meet project specifics and customer's design choice. One can use decorative foil in both residential and commercial settings, such as kitchen and bathroom cabinets, interior door, wall paneling, furniture surface, retail displays, and more.

Technical Parameters:

Our PVC film is available in a wide range of thickness, width, and lengths. Starting from 0.1mm up to 0.5mm, the width can range from 1260mm to 1400mm and the length of each roll can span from 100m up to 400m.

It provides over 100 designs for customers to choose from, including wood grain, solid color, marble, brick, and so on. Furthermore, customers have the option of 6 types of surface treatments, including matt, super matt, embossed, high gloss, and soft touch.

We are willing to provide OEM/ODM services to meet customer needs.

Applications:

Membrane Press (vacuum press)

Thickness: 0.20-0.50mm Width: 1260mm, 1400mm Length: 100-300m/roll

It is used to cover MDF, particleboard, wooden board, fiberboard, etc for doors, kitchen cabinet, wardrobe, furniture, etc. It also covers embossed board and covers five surfaces at the same time.

Wrapping Profiles

Thickness: 0.12-0.18mm Width: 40-1260mm Length: 300-800m/roll

This is used to cover all kinds of profiles including wood profile, aluminum profile, PVC profile, etc for door frame, window sill, base channel, PVC ceiling and so on.

Cold Laminating

Thickness: 0.12-0.20mm Width: 1240-1260mm Length: 300-500m/roll

This is used to cover all kinds of flat panels, such as wood panel, steel panel, aluminum panel, PVC panel, etc for doors and furniture.

Hot Laminating

Thickness: 0.16-0.30mm Width: 1260mm Length: 200-300m/roll

It is used to cover the PVC panel, steel panel, aluminum panel for doors, skirting and so on.

Self-adhesive

Thickness: 0.10-0.20mm Width: 600mm/1220mm Length: 5-50m/roll

It can be put on any smooth surface for furniture and indoor decorations.

Our team of experts is available to provide guidance and assistance with installation, maintenance, troubleshooting, and repairs. We also offer custom sizing and cutting services to meet your unique needs. If you have any questions or need assistance, please do not hesitate to contact us.

Packing and Shipping:

Packaging and Shipping

Marble PVC Film is usually packaged in roll and shipped in a secure container. To ensure the product arrives in perfect condition, it is important to take into account the size and weight of the product, as well as its destination and the desired shipping method.

The product is usually wrapped in a foam sheet prior to packaging. The roll should be secured with tape to prevent damage during transit. The roll should also be clearly labeled with the product description, quantity.

When it comes to shipping, there are many options available. Standard ground shipping is usually the most economical, but express or expedited shipping may be necessary for certain orders. Depending on the destination, shipment may be made by air, land, or sea.
